

612:10-7-161. Public and private vocational schools [AMENDED]

~~(a) The State Department of Career and Technology Education has established vocational training schools at various sites across the state. These schools offer vocational training in a wide variety of areas. Every area vocational technical school with a valid written purchasing agreement is listed in the computerized contract file.~~

~~(b)~~ Continued eligibility of a client in training at a ~~public~~ vocational school will be based on the client's performance in respect to grades, progress and attendance. The minimum standards used by the training facility for satisfactory progress in respect to grades and attendance will be utilized by DVR and DVS staff in determining the progress of the client.

(1) DVR and DVS sponsored clients attending ~~public~~ vocational technical schools who withdraw or fail course work will be required to pay for like credit or clock hours during the following enrollment period.

(2) A client who fails to meet agency sponsorship guidelines for training at ~~public~~ vocational technical schools may continue to receive services not requiring client participation in cost of services.

(3) A client failing to meet agency sponsorship guidelines may be approved by the ~~home~~ counselor if there are extenuating circumstances.

(4) A client failing to meet agency sponsorship guidelines will be contacted as soon as appropriate to complete a program review to determine if a change in services, vocational goal or objective is needed. A client failing to meet chosen goals will not have her/his case closed until the counselor has provided counseling and guidance and has determined that a change in the IPE is inappropriate. The counselor should investigate the need for further vocational and/or educational evaluation to explore alternative employment goals.
